- Perfect understanding of traditional and of physically based rendering (PBR) pipeline.
- Shader writing or shader building skills
- Rigging experience is always a plus
- Familiarity with the creation of user-friendly tools/systems

Skill Requirements:

- Perfect understanding of art optimization techniques.

- Experience and understanding of art/animation pipelines for game engines
- A great ability to think creatively to overcome technical challenges.
- Experience in video-game production as Senior Technical Artist (minimum 3 years)
- Great communication skills and a positive attitude.
- Strong organisational skills.

Portfolio requirements:

It is required that you submit a portfolio of your work with your application. You may do so by providing a link to an online portfolio, or attaching documents to your resume. All portfolios must contain a detailed shot breakdown of the work. It must be very clear what you, the applicant, are responsible for in your reel, screenshots, web page portfolio, etc.

Please apply with as many examples of the following as you can (no originals please):

- Scripts or application examples, code samples.
- Examples of 3D graphics (models, animation, visual effects, rigs)

Please attach meaningful work samples.

Your benefits:

- Flexible work hours
- External trainings, education in our in-house guilds and knowledge sharing with other project teams
- Fresh fruits, special conditions for gym membership, support for child care
- Subventioned lunch meals, possibility to lent bikes for free or lease your own bike!
- Working in an innovative and international company

We are offering highly motivating challenges for true team players with a high level of self-initiative. If you are passionate about about games and wish to become part of an innovative and diverse game development studio, please apply via our career portal.

Applications should include the earliest starting date and your salary expectation.
