We are looking for 3x Gameplay Programmers (f/m/d) to join The Settlers team based in Düsseldorf. You will be responsible for ensuring implementation of several unique game-play features, playing a critical role in the success of one of Ubisoft Blue Byte's most well-known franchises. The positions will be based at Ubisoft Düsseldorf for a period of 6 months.

Further responsibilities will include but not be limited to:

- Design, implement, maintain and optimize game and engine systems in C#
- Identify risks and opportunities presented during the development and provide solutions to resolve potentially complex problems

Requirements:

- Available to start immediately
- 5+ years of development experience
- Master, Bachelor or equivalent in computer science or engineering (desirable)
- Strong programming skills in C#
- Proficient in refactoring and optimizing existing systems
- Excellent debugging and problem solving skills
- Understanding of multi-threaded principles
- Ability to work efficiently with a large, existing code base
- Knowledge of low level system architecture
- Knowledge of software development environments and associated tools. (i.e. Visual Studio, Perforce, JIRA)
- Fluent in English, both verbally and written
- Great communication skills and a positive attitude

Your benefits:

- Flexible work hours
- Access to various Internal & External training courses, education in our in-house guilds and knowledge sharing with other project teams
- Fresh fruit, special conditions for gym membership, support for child care
- Subsidised lunch meals, Free Bike rental or lease your own bike and many more!

We offer a highly motivating challenge for team players interested in showing personal initiative in an innovative and international company. If you are passionate about games and would like to join an industry leader - please apply via our careers portal.

Applications should include the earliest starting date and your salary expectation.
