

Frontend Web Developer [Uplay PC]

Düsseldorf - Full-time - 743999718494932

Apply Now:

<https://jobs.smartrecruiters.com/Ubisoft2/743999718494932-frontend-web-developer-uplay-pc-?oga=true>

As part of the production team, you will be involved in the implementation of features and components throughout the full spectrum of web development. You will be using a variety of technologies and programming languages, including but not limited to HTML, JavaScript / TypeScript, CSS / SCSS and frontend frameworks like Vue.js and Angular.

You will work closely with a multi-disciplinary team of programmers, designers and testers where everyone is willing to share their knowledge and are encouraged to evolve every day. The team spans across several countries and is characterized by passion, collaboration and the love for PC gaming.

You will also have the option to visit and work from collaborating studios.

Responsibilities:

- Write clear, modular and maintainable code
- Participate in or lead feature task forces for technical design and implementation/improvement of new features.
- Testing, debugging, profiling and maintaining existing code
- Develop and maintain new public-facing web applications, shown in the Uplay PC client and on the web

You as a person:

We believe to succeed in this role you're a result focused person, who is passionate about developing platform software for games with millions of users. Furthermore, you believe in team ownership of what you craft and will be working with your colleagues to learn, share ideas and solve complex problems.

Longing to be part of a fun, creative and passionate workplace? We can offer you this and more in an open and friendly environment where you will work with some of the best craftsmen in the industry. Are you up for it? Come aboard for the ride!

Qualifications

- Excellent skills in JavaScript, TypeScript, HTML and stylesheet languages (CSS, SCSS, etc.)
- 4+ years of professional programming experience
- 2+ years experience with modern JavaScript frameworks (preferably Vue.js)
- Experience with common JavaScript tools and toolchains (e.g., webpack)
- Experience with common JavaScript testing frameworks (e.g., Jest)
- Basic knowledge of C++, C#, .NET Core or databases is a bonus.

What we want to offer you:

Our recipe for international success is a blend of diversity and a pioneering spirit

Boldly challenging the status quo, our teams bring tons of experience to AAA games across various platforms and love to develop cutting-edge technologies. Looking to innovate game development in a diverse, fun and collaborative studio with over 30 years of history? Join us.

- Flexible working hours
- External training, education in our in-house guilds and knowledge sharing with other project teams
- Fresh fruit, discounted gym membership, support for child care, company pension scheme
- Share ideas! = Working in an innovative and international company

If you are passionate about video games and would like to work with like-minded professionals with an international team, please apply via our career portal.
