As part of the production team, you will be involved in the implementation of features and components throughout the full spectrum of web development. You will be using a variety of technologies and programming languages, including but not limited to HTML, JavaScript / TypeScript, CSS / SCSS and frontend frameworks like Vue.js and Angular.

You will work closely with a multi-disciplinary team of programmers, designers and testers where everyone is willing to share their knowledge and are encouraged to evolve every day. The team spans across several countries and is characterized by passion, collaboration and the love for gaming.

You will also have the option to visit and work from collaborating studios.

Responsibilities:

- Write clear, modular and maintainable code
- Participate in or lead feature task forces for technical design and implementation/improvement of new features.
- Testing, debugging, profiling and maintaining existing code
- Develop and maintain new public-facing web applications, shown in the Ubisoft Connect client and on the web

You as a person:

We believe to succeed in this role you're a result focused person, who is passionate about developing platform software for games with millions of users. Furthermore, you believe in team ownership of what you craft and will be working with your colleagues to learn, share ideas and solve complex problems.

Longing to be part of a fun, creative and passionate workplace? We can offer you this and more in an open and friendly environment where you will work with some of the best craftsmen in the industry. Are you up for it? Come aboard for the ride!

## Qualifications
