Build & Release

Joining Build & Release, a division of Ubisoft, you will be supporting game productions and tech teams in all their needs with build system, version control and automation for their projects. This means working inside the pipelines, behind the scene of the systems. Our goal is to enable the projects to do their work as efficient as possible. We currently have 3 cooperation's with large game projects across Ubisoft.

Your Impact

As Build & Release programmer you will have the opportunity to be a part of a stimulating, multi-cultural, ambitious but friendly studio.

Our team members are self-sufficient and have a problem-solving mindset, with the freedom in their work environment they are able to explore new solutions independently.

- Working on a AAA title using the Snowdrop technology
- Maintenance and improvement of the existing build pipeline
- Supporting developers with versioning software
- Setting up CI/CD pipelines

- Solid understanding of C#
- Strong experience with Build and Automation Pipelines
